

The image is a promotional advertisement for the Carrera Evolution Pro-X remote control car. It features a dynamic, low-angle perspective of a race track. In the foreground, a red Ferrari-style RC car with Shell and G logos is in the process of overtaking a white and black RC car. A third, smaller multi-colored RC car is visible further down the track. A large, black and red remote control is positioned in the upper left, with a red 'X' logo on its side. The background is a bright, glowing orange and yellow, suggesting speed and energy. The overall composition is energetic and emphasizes the competitive nature of the hobby.

OVERTAKING
at full speed

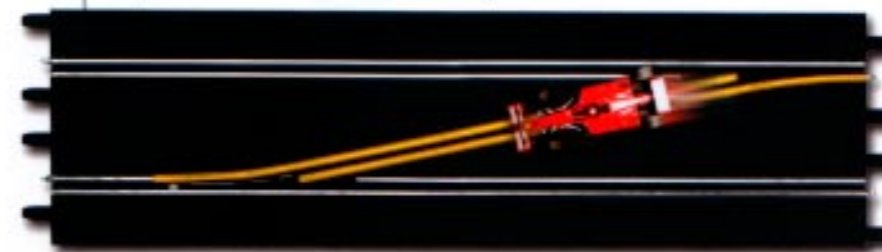

With one hand you control the speed and activate the lane change section!

At the push of a button you control the overtaking of your race car. Last but not least: keeping your thumb on the speed controller you have everything in one hand!

XXL-lane-change track for daring overtaking manoeuvres!

*At maximum speed in the fast lane!
There are 68,8 cm / 27.09 in.
to prove who is the real pro!*

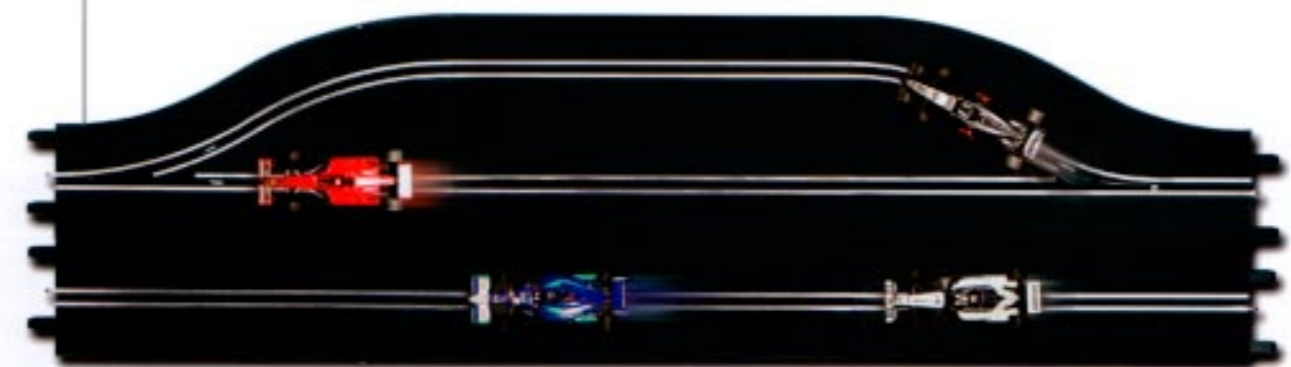

Easy and unlimited possibilities for extension!

The basic track material of Carrera Evolution, scale 1:24, allows you to perfectly rebuild every race track!

As in real racing a few seconds in the Pit Stop Lane are crucial!

Absolute realistic racing conditions - thanks to the Pit Stop!

Carrera® EVOLUTION PRO-X

Easy and unlimited
extension possibilities with the
Carrera track material
scale 1:24!

PRO-X Pit Stop Lane

- Pit stop entry and exit via lane switch sections
- Cars use "petrol"
- Due to irregular driving the necessity to enter the pit stop lane and fill up the car with petrol is indicated
- Petrol volume depends on the time spent in the pit stop – exactly as in real races
- A coded pace car starts moving at a constant speed and leaves the pit stop lane by order via Black Box
- After a defined period of time the pace car leaves the race track and returns to the pit stop lane

PRO-X Electronic lap counter

- Available for up to four PRO-X cars
- Measuring via infrared light barrier in the slot
- Cars are recognised via coded guide keels
- Information on LCD-display accurate to 1/100 sec.

Time races up to a maximum of
9 hs. 59 min. 59 sec.

Information on:

- race position
- laps driven
- last lap time driven
- best time

Lap races of a maximum of
999 laps downwards

Information on:

- race position
- laps to go
- time difference to the leader
- last lap time driven
- best time

the system
FOR WINNERS

PROFESSIONAL RACING AND OVERTAKING ACTION ON MEGA TRACKS

- 1 to 4 drivers can play simultaneously
- Up to 4 cars can race on one track simultaneously
- Specially developed PRO-X lane change sections allow for overtaking at maximum speed
- Individually coded, digitally controlled and special PRO-X cars
- Possibility to play with a programmable training car
- Pit stop lane and electronic PRO-X lap counter available as accessory
- PRO-X can be extended with any basic track material, scale 1: 24
- Special PRO-X cars, speed controllers, connecting tracks including Black Box and lap counter

PRO-X TRACKS SCALE 1:24
PRO-X CARS SCALE 1:32
THE IDEAL COMBINATION!

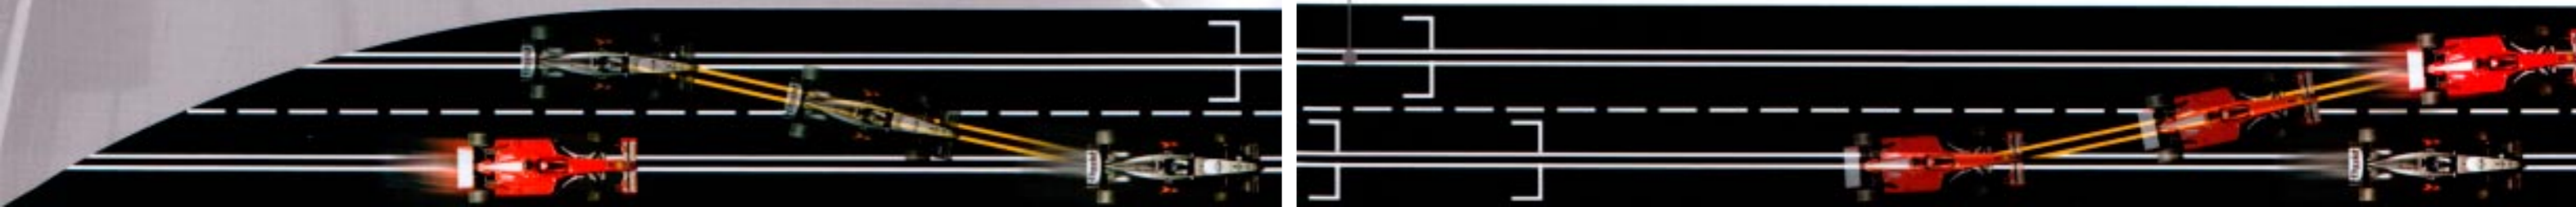

Tracks

- Carrera offers the widest tracks which allow for optimal racing in bends with sensational drifts and power slide action
- Slot racing and overtaking at its best: world-wide unique race track system combining tracks to race 1: 24 and 1: 32 scale digitally controlled cars
- Stainless U-profiles using Nirosta high-grade steel
- No vibrations in driving due to rigid synthetic material
- Stable track bolt system
- Supports for high banked curves adjustable in height
- Stable tracks with almost no gaps in between transitions

Cars

- PRO-X cars are digitally controlled and individually coded
- All PRO-X cars come with special guide keels fitted with side suspension
- Guide keel with code-stickers for time-keeping
- Tampon-printed, original and detailed cars
- Cars have realistic acceleration and braking action
- Sound finish of bodywork

Carrera EVOLUTION PRO-X

Contents:

1 Ferrari F2002 V10
1 McLaren-Mercedes MP 4/17
6 standard straights
1 connecting track with Black Box
2 PRO-X lane change sections
à 2 track sections
10 curves 1/60°
2 mech. speed controllers
1 transformer
Guardrails
Track section interlocks
Spare sliding contact
Operating instructions
Verge border sections
Dimensions when assembled:
321 x 109 cm / 12.53 x 3.58 ft
Track length: 6,9 m / 22.63 ft.

This product is an accurate model and not a toy.

PRO-X cars

- PRO-X cars are digitally controlled and individually coded
- Cars have realistic acceleration and braking action

ALL INCLUDED

PRO-X speed controller

Start the race at the push of a button - accelerating, overtaking, sliding into the bends! With just one hand at the speed controller you perfectly control the entire race.

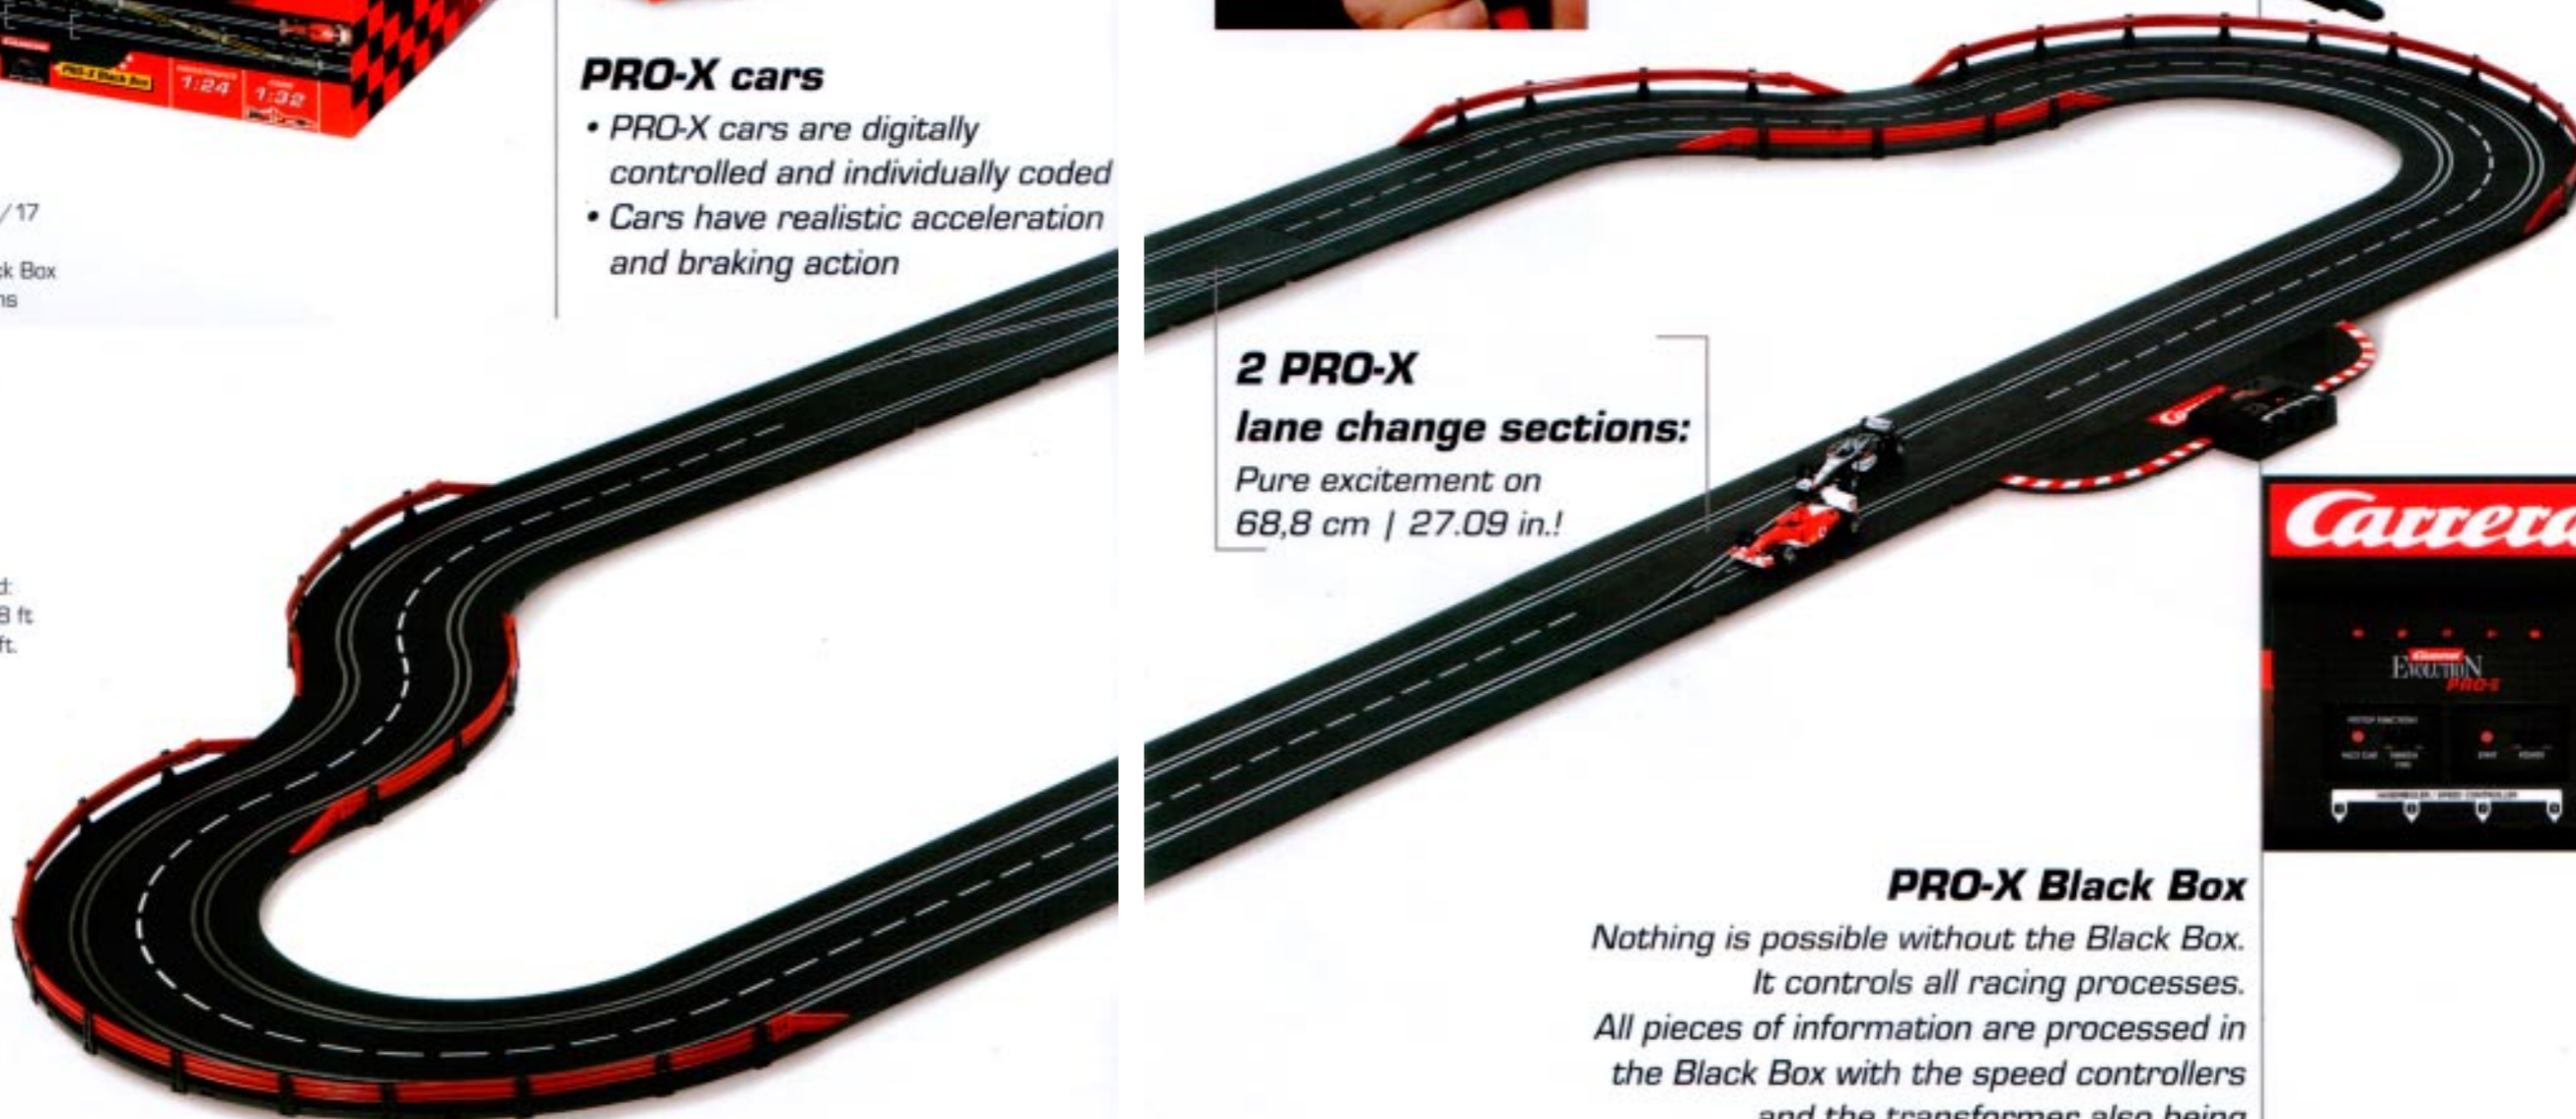

New guardrails!

2 PRO-X lane change sections:

Pure excitement on 68,8 cm | 27.09 in.!

PRO-X Black Box

Nothing is possible without the Black Box. It controls all racing processes. All pieces of information are processed in the Black Box with the speed controllers and the transformer also being connected to it.
